Jada

The Jada® System is intended to provide control and treatment of abnormal postpartum uterine bleeding or hemorrhage when conservative management is warranted.¹

**Fast.
Definitive.
Physiologic.²**

The Jada System
utilizes low-level vacuum^a to induce the physiologic contraction of the uterus.²

The advertisement features a photograph of the Jada System device, which consists of a long, thin, clear plastic tube with a green handle and a blue connector at the end.
